General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and descriptions, not only those dealt in on the exchanges but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.; "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which *do not* appear under the previous two headings, namely "Railroads (Steam)" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

United States and Municipal Bonds

In reporting below prices for State and municipal securities, we give bid and asked quotations wherever they can be obtained. The custom however, is to quote municipal securities on the basis of the return they yield per annum. Therefore in most cases it will be found that instead of actual prices we have inserted in the column headed "To Net" certain figures to indicate the interest rate at which business in the bonds is being done. Thus 4.35% means that the particular security can be bought or sold at a price that will yield the purchaser or seller 4.35% per annum to the maturity of the issue. Where two figures appear, as for instance "4.25% to 4.35%," the rate of return varies according to the maturity—the shorter maturities yielding the lowest rate, and the longer maturities yielding the highest return. Recently however, owing to the ease in the money market, it has happened in not a few instances that the shorter maturities have been yielding the highest rate of return, and where that happens to be the case, the range has been reversed to read say 4.35% to 4.25%.

In State and municipal bonds the custom has always been to quote them "and interest." That is, the accrued interest must in all cases be added on. There are a very few which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (f)

STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the *closing day of the month preceding date of issue*, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

REVIEW OF FEBRUARY—COMMERCIAL AND FINANCIAL EVENTS.

Soldier bonus legislation, with constant clashes between President Hoover and Congress on that and other proposals that the President deemed injurious or objectionable, constituted the dominant feature in the political and industrial situation during February, overshadowing everything else and undoubtedly exercising a repressive influence upon trade pending the outcome, thereby preventing business revival on any extended scale, at least for the time being. Mr. Hoover had two great objects in view: first, the avoiding of burdensome and reckless expenditure of public funds which would cripple the Treasury and impose unjustifiable burdens upon the taxpayers, and secondly to avoid the convening of an extra session of the new Congress, which, in due course, will not assemble until next December, after the expiration of the life of the old Congress on Mar. 4. He felt that the legislative proposals that would inevitably be broached with the convening of the new Congress, in which the two great political parties are nearly evenly divided in membership, could not fail to be highly disturbing, especially at a time when trade continues so seriously depressed and when what is needed most of all is a period of rest and quiet, during which the process of restoring business health can proceed in the ordinary normal way, free from the extraneous depressing influences which are always sure to emanate from political quarters. The President was successful in attaining this latter object, since Congress before adjourning sine die on Mar. 4, passed the appropriation bills and other measures deemed urgent, some of which the recalcitrant elements in Congress had threatened to hold up in the event that they were thwarted in getting certain measures on the statute books, more particularly the soldier bonus proposition and drouth relief, thereby relieving the President of the necessity of calling the new Congress together before the prescribed time in December. But he accomplished this at the cost of the burdensome legislation which he sought so strenuously to avoid. Congress at every step completely disregarded the President's objections to the soldier bonus proposition, and when the bill actually came to him after having passed both Houses of Congress by overwhelming majorities, and the President deemed it incumbent to interpose his veto, the two houses both overrode the veto by enormous majorities, inflicting upon the Executive of the nation one of the severest defeats ever suffered by an American President.

It is proper to say, however, that this soldier bonus proposition did not take the extreme form originally contemplated, so that the protest of the President and Mr. Mellon, the Secretary of the Treasury, cannot be said to have been entirely without effect. The original proposition was to pay now the full face value of the adjusted service certificates voted the war veterans in 1924, when the matter was up before in Congress, and was then supposed to have been definitely settled for good through the issuance of these service certificates, but which do not fall due until 1945. In other words, these service certificates, adjusted according to the service rendered by the veterans, are in the nature of endowment insurance policies, payable after a definite term of years—in this case 20 years from 1925, or in 1945. The original proposal was to pay these certificates to their full face value at the present time instead of waiting until 1945, and would have involved an immediate outlay on the part of the Treasury in the huge amount of $3,400,000,000. To carry out any such scheme would, as Secretary Mellon so clearly showed, involve the issuance of United States bonds in this huge amount. The mere suggestion of the possibility of anything of the kind was sufficient, as soon as the public got an inkling of what it implied, to precipitate a severe break in all the outstanding issues of United States bonds, as we showed in our review for the month of January. The Congressional leaders, desirous though they were to extend aid to the vast army of veterans to the number of about 3,397,973, and presumably to gain their favor, did not deem it expedient to go as far as that. Instead, they decided to allow the veterans to borrow up to 50% of the face value of their service certificates with interest at 4½% per annum. This will involve a correspondingly smaller drain upon the Treasury, and yet will, according to the best estimates, be in the neighborhood of a full billion dollars. The President and Mr. Mellon thought even this far too heavy a burden to assume, especially in a time of business depression, with Government revenues rapidly declining, and, besides, they could see no need or justification for such a tremendous outlay. Accordingly, they voiced their opposition to this modified proposal just as they had to the plan in its original shape. They adduced, too, the strongest kind of arguments in support of their objections. But Congress was now in no mood to give consideration to what might be said in opposition. It was bent on rushing the measure through, whatever might be urged against it. Even some of the President's staunchest political supporters—Speaker Longworth, for instance, of the House of Representatives—who ordinarily deem it an article of faith to support the head of the party to which they belong, forsook Mr. Hoover on this occasion. Thus he was left forlorn and the cause he espoused was hopeless from the start. He nevertheless persisted in his opposition out of a sense of public duty.

On Feb. 12 the House Ways and Means Committee, by a unanimous vote, adopted the compromise proposal authorizing loans up to 50% of the face value of adjusted service certificates at 4½% interest. The bill was now rushed pell mell through both Houses of Congress. On Feb. 14 the bill was formally presented to the House by Representative Bacharach of New Jersey, he having been chosen as sponsor of the compromise, since Chairman Hawley, of the Ways and Means Committee, while voting for it, was not entirely in sympathy with some of its provisions. Newspaper reports pointed out that in order to avoid possibility of a pocket veto by the President the bill would have to be passed prior to the 10-day period before adjournment of Congress on Mar. 4, and that that period began Feb. 21, Sundays not being counted in the 10-day period.

Speaker Longworth indicated that he would recognize Representative Bacharach for a motion to suspend the rules and set a 40-minute limitation upon the debate. This was done, and on Monday, Feb. 16, when the bill was called up in the House under a suspension of the rules, it was passed by that body by a vote of 363 to 39. With most of the Republican leaders in Congress deaf to Administration protests, the bill was sent immediately to the Senate, where

steps were taken to pass it, so the newspapers said, by Saturday, Feb. 21, and thus force President Hoover to veto or approve the measure before adjournment on Mar. 4. The Democrats present, 150 of them, voted solidly for the bill. It was pointed out that the House vote was larger than expected, and that "it exceeded in emphasis the vote by which the House adopted the original bonus in March 1924." That bill went through, over the objection of President Coolidge, by a vote of 355 to 54. President Coolidge's veto was overridden by a vote of 313 to 78. Congressman Bacharach, in presenting the bill, outlined its provisions and the probable requirements under it as follows:

"On Jan. 1 it is estimated that there were in force and effect approximately, 3,400,000 certificates, with a maturity value of about $3,423,000,000, or averaging a little over $1,000 apiece. On certificates issued as of Jan. 1 1925, in the average case 22½% of the maturity value may under the present law be borrowed, the total loan value approximating $730,000,000. This bill provides for increasing this value to $1,712,500,000. Approximately $325,000,000 has been loaned on adjusted service certificates. Of this, approximately $13,000,000 is represented by notes held in the adjusted service certificate fund, $26,000,000 in banks and $286,000,000 from the United States Government life insurance fund.

"The total assets as of the first of the calendar year held by the adjusted service certificate fund amounted to approximately $771,000,000, from which provision must be made for the payment of certificates maturing on account of death, which, according to the American experience table of mortality, will amount to $21,000,000. The assets of the adjusted service certificate fund are composed of $756,000,000 in special Treasury notes and $13,000,000 in notes secured by adjusted service certificates, the remaining $2,000,000 being represented by accrued interest.

Divided Opinion on Cost.

"It will thus be seen that the principal feature of the bill is that it increases the loan value to 50% of the face value of the certificates. This compares with a loan value of 53% on an old-line insurance policy which has been in force the same length of time as the adjusted service certificate, in other words, on an old-line insurance company's policy for $1,000, running for the same length of time, $530 could be borrowed, while only $500 can be borrowed on the adjusted service certificate.

"The Treasury Department estimates that the potential cost of this legislation will be $1,720,000,000. This estimate, of course, is based upon the assumption that the holders of the 3,397,973 certificates now in force would take full advantage of the loan value of their certificates.

"It should, in fairness, be stated that there is some divergence of opinion as to the probable cost of this legislation, and estimates of the cost range from $375,000,000 upward.

"There is no way to determine accurately just what the cost will be but the facts are that only about 48% of the veterans eligible to borrow on their certificates have taken advantage of this right, and they have borrowed only about 43% of the total amount available for that purpose.

Expect Half to Borrow.

"If the veterans of our country have gone through a period of distress through which we have been passing in the past year and a half, with only 48% of their number taking advantage of the loan feature of their adjusted certificates, it seems reasonable to assume that not more than 50% will take advantage of the increased loaning value of their certificates under this bill.

"This is borne out by the fact that while the borrowing value of all outstanding certificates for the year 1930, the worst period of distress and unemployment, was $4.0,000,000, the veterans borrowed only $90,000,000 during the year.

"It would therefore seem that the greater number of the veterans holding adjusted service certificates have a full realization of their real value at the end of the 20-year period and of the protection afforded their dependents in the event of death in the interim, and will preserve them intact until maturity.

"There is transmitted herewith letters from the Secretary of the Treasury and General Frank T. Hines of the veterans' administration bearing upon the bill."

It will be seen that Representative Bacharach, in the concluding paragraph of the foregoing, stated that he was transmitting letters from the Secretary of the Treasury and General Frank T. Hines of the Veterans' Administration bearing upon the bill. Mr. Mellon's letter was dated Feb. 14, and the action of the House, so precipitate and so overwhelming, was in face of the statements contained in that letter. The Secretary in this letter to Chairman Hawley, of the House Ways and Means Committee, said that "as the face value of these certificates is $3,440,000,000 in round numbers, this proposal establishes a potential liability of $1,720,000,000." The Secretary called attention "to the fact that the only funds made available for meeting this liability of $1,720,000,000 are those in the adjusted service certificate fund, amounting to $772,000.000, less $21,000,000 which must be reserved for the payment of death claims this year. This," Secretary Mellon added, "would indicate that unless Congress is prepared to incur an obligation without providing means of meeting it, an appropriation of approximately $1,000,000,000 is necessary." Mr. Mellon also pointed out that the Treasury was "confronted with a probable deficit of not less than a half billion dollars for this fiscal year, which also must be made good by borrowing." Plans for the Liberty Loan refunding operations were also alluded to by Mr. Mellon, who, in conclusion, said:

The Treasury wishes earnestly to call attention of the committee to the cumulative effect of all these factors which make the problem of current financing extraordinarily difficult, particularly in view of the desirability of the Government's not making too great demands upon the investment market at this time. I regret that I cannot, in view of the situation explained above, approve of the Treasury assuming the obligations imposed by this bill.

I cannot too urgently recommend that this measure should have reconsideration in order that it should be placed upon a basis which will not damage our whole financial position.

In a letter addressed, on Feb. 18, to Senator Reed Smoot, Republican, the Chairman of the Senate Finance Committee, President Hoover also gave expression to his objections. All this, however, proved of no avail, and on Feb. 19 the bill was passed by the Senate by a vote of 72 to 12, with a dispatch, the newspapers remarked, seldom seen in that branch of Congress. The newspapers also said that every attempt to amend it was shouted down for fear of delay which would enable the President to kill the measure by a pocket veto. It was added, however:

Despite all the well laid plans to guard against such a contingency, the House made a slip by adjourning before the Senate was ready. That precluded the Speaker's signing the bill to-night in the presence of the House, as required, and delayed the delivery of the legislation to the White House by one day. Parliamentarians said it left less than 10 days to the adjournment of Congress and thus empowered the President to pigeonhole the measure if he so desired.

President Hoover was prompt in letting it be known that he would veto the bill and not attempt to kill it by a pocket veto, and on Thursday, Feb. 26, he sent in his veto message. Congress was no less prompt in setting the veto aside. The House disposed of the veto in 43 minutes after the receipt of the veto message, refusing to sustain the veto by a vote of 328 to 79, or 58 more than the two-thirds necessary to set aside the veto. In the Senate the veto was overruled on Friday after a three-hour debate by a vote of 76 to 17. Mr. Hoover characterized the measure in no uncertain terms. He also stressed the ill consequences that were certain to follow. According to the Administrator of Veterans' Affairs, said the President, the probable number of the veterans who will avail themselves of the privilege granted under the measure will require approximately $1,000,000,000. Then the President followed with the statement that "there not being a penny in the Treasury to meet such a demand, the Government must borrow this sum through the sale of the Reserve fund securities, together with further issues, or we must need impose further taxation." Mr. Hoover then undertook to show how liberally provision had already been made for the veterans, saying:

"The principle that the nation should give generous care to those veterans who are ill, disabled, in need or in distress, even though these disabilities do not arise from the war, has been fully accepted by the nation. Pensions or allowances have been provided for the dependents of those who lost their lives in the war; allowances have been provided to those who suffered disabilities from the war; additional allowances were passed at the last session of Congress to all the veterans whose earning power at any time may be permanently impaired by injury or illness; free hospitalization is available not only to those suffering from the results of the war but to large numbers of temporarily ill. Together with war-risk insurance and the adjusted compensation, these services now total an annual expenditure of approximately $600,000,000, and under existing laws will increase to $800,000,000 a year in a very few years for World War veterans alone. A total of $5,000,000,000 has been expended upon such services since the war."

With the measure now on the statute books the Administration began immediately the work of making the loans authorized by the new law, the distinguishing features of which are, as already noted, that it increases the loan privilege from 22½% to 50% of the face value of the adjusted service certificates and that the interest rate on the loans will be 4½%, compounded annually. The Act also provides that certificates already pledged for loans to banks can be recovered and the whole 50% obtained from the United States Government at the 4½% rate, which is presumably less than what the banks were charging the veterans. In other words, provision is made for veterans who are paying more than 4½% interest on loans already obtained to refinance their loans at the lower rate. The law also provides that the Administrator of Veterans Affairs may make loans out of the $772,000,000 sinking fund set aside to retire the certificates in 1945, and also from the Government Life Insurance Fund. Roughly, 3,400,000 certificates are held by the veterans, with a maturity value of $3,423,000,000. These certificates, under the old law, had a value of $720,000,000, which by the new law is increased to $1,712,500,000. About $325,000,000 of loans were outstanding against the

certificates and the sinking fund provision which is made available for part payment of the 50% loans consists mainly of Government obligations which, as the President said in his letter to Senator Reed Smoot, under date of Feb. 18, will have to be sold and thus converted into cash. It is estimated that 50% of the veterans will request loans, since about 48% have already obtained loans under the old law. Though the Treasury Department estimates that $1,000,000,000 will ultimately be required to meet the 50% loans authorized under the new Act, Secretary Mellon included only about $291,000,000 for the purpose in his March program of financing, deeming that sufficient to cover the immediate needs for the ensuing two or three months.

OTHER PRESIDENTIAL VETOES.

Mr. Hoover also sent in some other veto messages, but none of these were overridden by Congress. The first veto message was sent in on Feb. 7, but the subject was of no consequence, as it provided simply for the relief of a designated Spanish-American War Veteran. The President said the War Department files failed to disclose the name of any such person. On Feb. 24 the President returned to the House, without his approval, a bill designed to amend the Act of May 14 1926 so as to permit certain Chippewa Indians of Minnesota to share in the distribution of an interest fund derived from the sale by the United States of tribal lands in that State. The President held that it was unnecessary to amend the Act to bring in as parties plaintiff those Indians who have severed their tribal relations, as their claim for a distributive share of the interest fund had already been adjudicated by a decision of the Supreme Court of the United States in the case of Wilbur vs. The United States, known as the Kadrie Case. On Feb. 18 the President also returned without his approval a bill which would have given to the Court of Claims authority to revive the claims of the Choctaw and Chickasaw Indians relating to land relinquished under treaty by the Indians more than 75 years ago. The proposed measure the President declared would "create a lawful aspect to a claim which had no legal standing." After the close of the month, on Mar. 3, the President also vetoed the Muscle Shoals bill, rejecting the proposal contained therein for Government operation as economically unsound and a threat to the initiative of private enterprise. In this case the President was sustained in his veto, 34 votes being cast to uphold the veto, and 49 to override—not the necessary two-thirds.

FURTHER MEASURES OF DROUTH RELIEF.

The President also got into controversy with certain members of Congress regarding contemplated relief for the sections of the country so seriously stricken by drouth last summer. As noted in our review for the month of January, the United States Senate attached a rider to the Interior Department Appropriation Bill, appropriating $25,000,000 for relief purposes to be expended by the American National Red Cross, but which the latter felt it incumbent to decline, not deeming it proper to use public funds for such a purpose, and, moreover, having already made arrangements for obtaining private funds for the purpose. Referring to this, and noting that "certain Senators have issued a public statement to the effect that unless the President and the House of Representatives agree to appropriations from the Federal Treasury for charitable purposes they will force an extra session of Congress," President Hoover, on Feb. 3, issued a statement in which he argued for the maintenance of "the spirit of charity and mutual self-help through voluntary giving and the responsibility of local government as distinguished . . . from appropriations out of the Federal Treasury for such purposes." The President expressed it as his conviction that "if we break down this sense of responsibility of individual generosity to individual and mutual self-help in this country, in times of national difficulty and if we start appropriations of this character we have not only impaired something infinitely valuable in the life of the American people but have struck at the roots of self-government." The President asserted that "the basis of successful relief in national distress is to mobilize and organize the infinite number of agencies of self-help in the community." The Red Cross officials, he said, "inform me this morning that except for minor incidents of any emergency organization, no one is going hungry, and no one need go hungry or cold." He likewise said, "they [the Red Cross] have refused to accept Federal appropriations as not being consonant either with the need or the character of their organization." In his further declarations President Hoover said: "I am willing to pledge myself that if the time should ever come that the voluntary agencies of the country, together with the local and State governments, are unable to find resources with which to prevent hunger and suffering in my country, I will ask the aid of every resource of the Federal Government, because I would no more see starvation among our countrymen than would any Senator or Congressman. I have the faith in the American people that such a day will not come." Mr. Hoover also said: "This is not an issue as to whether people shall go hungry or cold in the United States. It is solely a question of the best method by which hunger and cold shall be prevented." Mr. Hoover also quoted what President Cleveland said back in 1887, when confronted with a similar issue, namely:

"A prevalent tendency to disregard the limited mission of this power and duty should, I think, be steadfastly resisted, to the end that the lesson should be constantly enforced that, though the people support the Government, the Government should not support the people.

"The friendliness and charity of our countrymen can always be relied upon to relieve their fellow citizens in misfortune. This has been repeatedly and quite lately demonstrated. Federal aid in such cases encourages the expectation of paternal care on the part of the Government and weakens the sturdiness of our national character, while it prevents the indulgence among our people of that kindly sentiment and conduct which strengthens the bonds of common brotherhood."

On Feb. 6, however, Republican and Democratic leaders of the Senate agreed on a compromise proposal on the $25,000,000 relief dispute, which, said the New York "Times," if accepted by President Hoover, to whom it was submitted late in the day, would cause the Democrats to abandon their threats to filibuster and force an extra session of Congress. Regarding this compromise, a Washington dispatch to the New York "Times" said:

The compromise provides for the appropriation of $25,000,000 to be lent to farmers in the drouth-stricken area for seed, fertilizer, feed for live stock, and "crop production and farm rehabilitation." The original suggestion stipulating specifically that the fund should be also available for food for the people was eliminated and the words "for crop production and farm rehabilitation" substituted. The new language is considered by Senators to be sufficiently broad to permit the use of the appropriation for feeding drouth victims, if necessary, but Democratic Senators want the Administration to agree in advance to that interpretation.

Following a slightly modified agreement reached on Feb. 6 by the House and Senate conferees, the compromise drouth relief measure carrying an appropriation of $20,000,000 (rather than $25,000,000) for loans to farmers was reported favorably on Feb. 7 to the Senate. It immediately appeared, however, that the compromise was meeting with sharp dissent from certain Senators, in particular Senators Wheeler and La Follette, but after letters had been received from both President Hoover and the Secretary of Agriculture, Arthur M. Hyde, giving their interpretation of the language of the provision both the House and the Senate on Feb. 14 passed the Interior Department Appropriation Bill, carrying the $20,000,000 compromise drouth relief amendment, and the measure was signed on the same day by President Hoover. The bill provides for a total appropriation of about $90,000,000. Regarding the action of the two houses of Congress on Feb. 14, the "United States Daily" said:

After debate of a week, the Senate agreed to the report of its conference committee, 67 to 15, and sent it back to the House, where immediate action was had, the House adopting it without a record vote.

Thus was brought to a conclusion the controversy that has involved leaders of both House and Senate and the President, and which finally resulted in an accord sponsored by the majority and minority leadership in both Houses, and which the President accepted.

In Associated Press dispatches from Washington, Feb. 21, it was made known that the current short session of Congress would go down in history for the extent of the appropriations made to provide for a long list of emergencies. The dispatch is worth quoting in full, as follows:

To date more than half a billion dollars has been appropriated for all manner of relief to the unemployed and drouth sufferers. All of it was made available for immediate use.

All but $185,000,000 was provided by enactment of regular annual appropriation bills, which also carried several billion to carry on the normal operations of the government for the next fiscal year. The latter funds do not become available until July 1.

In addition to the half-billion dollars appropriated for immediate use, $200,000,000 for building is carried in supply bills for that purpose after July 1.

Here is a recapitulation of the relief measures already adopted and the sums appropriated for immediate use:

Emergency measures—
Public works construction, $116,000,000.
Drouth loans, $65,000,000.
Medical supplies, $2,000,000.
Flood loans to Southern States, $2,500,000.
Funds carried in regular supplies bills—
Construction, first deficiency bill, $20,000,000.
Road construction, agricultural bill, $125,000,000.
Reclamation projects, &c., Interior bill, $34,000,000.
Public buildings, Treasury bill, $61,000,000.
Rivers and harbors, War Department bill, $60,000,000.
Military post construction, War Department bill, $20,000,000.

FARM BOARD AND GRAIN DEVELOPMENTS.

The Farm Board situation took on some new aspects during February. In a statement issued at Chicago on Feb. 26, by George S. Milnor, President of the Grain Stabilization Corp., operated under the Federal Farm Board, it was announced that the corporation would sell in export markets, in the next four months, not to exceed 35,000,000 bushels of wheat. Mr. Milnor's announcement said:

"There have been persistent rumors both in this country and abroad regarding the probable selling policy of the wheat under control of the Federal Farm Board. It is believed that the effect of such rumors upon the grain market creates a feeling of uncertainty that the facts do not justify. Therefore, this corporation, which owns all of the so-called Farm Board wheat, is very glad to announce the following policy which has the full concurrence of the Fderal Farm Board:

"The corporation has some stocks of choice milling quality wheat at the Atlantic Seaboard, Gulf, and in the Pacific Northwest which, on account of position, cannot move into domestic markets advantageously for milling, drouth relief, or feeding purposes.

In order that such stocks may be disposed of in ample time to clear the port facilities for taking care of the new 1931 crop, it is deemed advisable that such wheat be sold in export markets during the next four months. The quantity available will not exceed 35,000,000 bushels, including Pacific Coast wheat, which will move largely to the Orient.

"The wheat will not be offered at lower prices than those of other principal exporting countries, taking into account customary differentials for grades and quality. This enables the United States to participate in an equitable basis to supply the requirements of importing countries.

"The above is the maximum amount that the Corporation will sell for export on this crop, unless unforeseen crop or market conditions should cause world markets to advance to a price substantially above our present domestic level.

"There is nothing in this export policy that will interfere with, or cause any change in, the domestic policy on the 1930 crop which has been in effect for some months past."

On Feb. 5 Alexander Legge, Chairman of the Federal Farm Board, had expressed the view that as a result of continued drouth throughout some of the principal wheat producing States it was entirely likely that there would be a shortage of wheat next year. According to Washington advices, Feb. 5, given in the New York "Times," he pointed out that the carryover of last year's wheat crop was only 40% of the normal annual consumption, or about 275,000,000 bushels, and he asserted that due to the drouth the wheat growing region west of Illinois was in a very bad condition. The possibility that the Federal Farm Board might control nearly all of the carryover of last year's wheat crop, amounting to about 275,000,000 bushels, was pictured by Mr. Legge, on Feb. 19, according to a Washington dispatch to the New York "Times," which went on to say:

Because roads throughout the wheat-growing territory have not been closed to transportation throughout the winter, he said, and the present price of wheat is above that to be paid on delivery of July futures, deliveries are now coming into the Stabilization Corporation at about double the rate of last year.

The present holdings of the Board, he said, include about 100,000,000 bushels of the carry-over from last year and deliveries were made at a rate of about 1,000,000 to 1,500,000 bushels daily. This would bring the Board's holdings by that time to about 200,000,000 bushels, the present status of the carry-over as a result of winter live stock feeding.

Aside from the factors mentioned, Mr. Legge said, farmers had been urged by grain elevator interests and others to make their deliveries of wheat to the Stabilization Corporation as early as possible.

"I suppose they thought it might make us lose courage and have a depressing effect on world prices by getting it all into the show windows at this time," he added.

Reports that the Board would call in its March contracts for delivery at that time were confirmed by the chairman. He believes, however, that such action would have little if any effect on the market.

In the meantime evidence accumulated going to show that the Canadian provinces were finding the grain problem a trying one. Canadian press advices, for instance, from Winnipeg, Feb. 20, as published in the Montreal "Gazette," stated that "total liability of the Prairie Governments on guarantees of bank advances to the wheat pools is approximately $22,455,983 on the basis of figures of Feb. 16, Premier John Bracken announced in his budget speech to the Manitoba Legislature to-night." Manitoba's share of the liability, it was stated, was approximately $3,491,611. The dispatch added that until the unsold stocks of the 1929 crop were disposed of, only approximate liabilities could be calculated, and that the unsold stocks at the present time were unknown, but that an ultimate loss was not feared by any of the Western provinces, as the assets of the pools were held as security ranging in the millions of dollars.

It happened that at this time a European grain conference which had brought together the delegates of 24 nations ended its three-day session on Feb. 25, so a Paris cablegram to the New York "Times" said, "with the realization that its immediate objective was about as far away as it was when the meeting began." The cablegram further added:

The only concrete accomplishment—and this was more in the nature of a "moral gesture"—was the formal signing by sixteen participants of an act favoring the disposal of the surplus stocks of 1930 Danubian grain.

The setting up of the all-important machinery for buying and selling these cereals, which must take place before the problem even begins to approach a solution, was left to the initiative of the individual members.

Upon the less tangible though equally significant question of giving life to Aristide Briand's dream of a European federation the conference registered fresh enthusiasm, although it must be added that when the delegates got down to business their deliberations were at once a striking illustration of the formidable practical obstacles in the way of such unity.

The announcement that the Federal Farm Board contemplated selling 35,000,000 bushels of wheat in the near future had curious repercussions in Europe, where the public appeared to have lost sight of the fact that the Farm Board, with its Grain Stabilization Corp., simply acted as intermediary between the farmers and the consuming public, and that whatever wheat it might accumulate was a mere temporary operation intended simply to ease the situation of the farmer for the time being during a period of a temporary glut in supplies, and that there was never even a remote intention of holding on indefinitely to the stocks of grain it might temporarily take over as part of its policy and program, any more than the Canadian grain pools do. Carlisle MacDonald, in a Paris cablegram to the New York "Times," under date of Feb. 27, stated that a feeling closely akin to consternation had developed in the second European Grain Conference late that afternoon, when it learned that the United States Farm Board had decided "to sell 35,000,000 bushels of wheat in Continental markets at a price considerably below that maintained at home." This is a statement which is erroneous, according to the announcement of the Farm Board itself, as quoted above, the Farm Board having in said announcement expressly stated that there was no intention in selling to underbid other markets. However, this Paris correspondent went on to state that "when the heads of the various delegations had partly recovered from their astonishment, keen interest was the reaction to the move characterized as 'American dumping' on a scale comparable with that of Russia." The correspondent added:

Some of the delegates hesitated to believe the American Government would consent to a scheme which, according to to-day's reports, does not differ from the Soviet selling methods which are widely denounced in the United States. Others recalled that Canada and Argentina were conducting intensive selling campaigns throughout Europe, in which the diplomatic representatives of the two nations were actively engaged.

Because of the high prices fixed by the Farm Board, Canada and Argentina have been able to obtain much business which had previously gone to the United States. With the Farm Board apparently determined to overcome this handicap, the question has naturally arisen here as to whether American diplomats will now become wheat salesmen.

The delegates' resentment was caused by the fact that United States competition would further depress the European wheat market. The only definite thing which the present conference accomplished was recognition of the fact that the European grain crisis could not be solved without the collaboration of the great wheat-producing countries overseas. Francois Poncet as president of the conference suggested a world grain agreement.

The delegates who accepted the reported decision of the Farm Board as a fact stressed that a world grain accord was imperative now. Unless such an understanding can be reached, these experts believe the European agricultural situation, especially in Rumania, Poland, Yugoslavia, Bulgaria and Hungary, will go from bad to worse with Russia and the United States dumping huge quantities of wheat, further depressing prices and demoralizing markets.

There was much speculation among grain experts as to the price which the Farm Board would fix for its European shipments. Russian high protein wheat is sold for about 1 cents a bushel under the price of the best Canadian product. If the American board desires to compete with the Russians it will have to undersell Canada.

Assuming the figure of 35,000,000 bushels to be accurate, observers here explain, it represents about half of the total amount of wheat which the Russians dumped on the European market from Aug. 1 1930, to Feb. 19 last. The Farm Board is understood to control 140,000,000 bushels. According to the estimates of French grain brokers, Europe must import about 320,000,000 bushels of wheat each year.

The Board's plan will be awaited with no little anxiety, especially since the grain conferences have been able to advance very little the solution of Europe's agricultural troubles. The first conference, which dealt with last year's surpluses, failed to achieve practical results because of the manifold business obstacles in the way, and the present meeting, which concludes to-morrow morning, will have to adjourn with its problem of future surpluses no further along the road to solution.

The announcement of the Farm Board had the effect of weakening wheat prices the last few days of the month. We do not mean that it had any effect on the nearby options, since these have been kept under the absolute control of the Farm Board, with no price deviations worthy of note, as appears from the fact that the March option for wheat in Chicago closed Feb. 28 at precisely the same figure as the

opening price on Monday, Feb. 2, namely, 79½c., and that the range for this option for the entire month of February was encompassed between 79½c. and 80¼c., and that the May option for wheat closed Feb. 28 at 82¾c. against the opening price Feb. 2 of 82½c., and that the range for the month for this option was no wider than 82¼c. to 84⅛c. In the case, however, of the options for the next crop, in which the Farm Board has not been conducting operations, the market price, which had shown a rising tendency the early part of the month, displayed marked weakness the latter part. Thus July wheat at Chicago, which had risen from 65½c. Feb. 2 to 72⅝c. Feb. 10, touched 63¾c. on Feb. 28, closing on that day at 64⅜c. In like manner September wheat at Chicago, after moving up from 63½c. Feb. 2 to 72½c. Feb. 10, was back to 64c. on Feb. 28, with the close on that day at 64⅝c. The experience of the Canadian grain markets was much the same. The May option for wheat at Winnipeg, after rising from 57⅞c. Feb. 2 to 66⅞c. Feb. 10, declined to 58⅝c. Feb. 28. July wheat at Winnipeg, after moving up from 59c. Feb. 2 to 68½c. Feb. 10, was 60⅜c. Feb. 28. Other grain prices also sharply declined the latter part of February, after early strength. Thus March corn in Chicago, after rising from 62c. Feb. 2 to 67⅜c. Feb. 10, was down to 60⅛c. Feb. 28, and May oats in Chicago, after rising from 32½c. Feb. 2 to 35c. Feb. 10, touched 32c. Feb. 28. The decline in grain prices had many indirect adverse effects. Thus Kansas City dispatches, Feb. 20, stated that, with demand restricted, heavy hogs had declined to a top of $6.40 per hundredweight, and best light weights to $7. It was also stated that heavy hogs were the lowest since 1914, and that cattle, sheep and lambs were also depressed, and at about the lowest prices in eight years. It was likewise stated that eggs in western Kansas were bringing only 6c. a dozen, which was lower even than in 1893, and that farmers were cracking fresh eggs into swill as hog feed. C. B. Denman, member of the Federal Farm Board, said in a statement given out at Washington, Feb. 21, that low-priced grain and a favorable corn hog-feeding ratio had resulted in an overproduction of heavy fat hogs. Low-priced grain, Mr. Denman indicated, had caused many Corn Belt farmers to overfeed their hogs, notwithstanding that the average housewife refuses to buy overfat pork cuts. The New York "Times," on Feb. 24, reported that quotations on packer hides declined the previous week to the lowest level since 1893.

Sugar prices also moved lower in face of the plan for controlling the production and distribution of the world's crops. Cuban raw sugar, as against 1.40c. at the end of January, sold several times during February at 1.30c., with the last sale of the month at 1.32c. Cuban raw sugar at wholesale in this city was marked down on Feb. 9 by the leading refineries from 4.70c. to 4.50c. Havana advices, Feb. 26, stated that President Machado had signed a decree providing that only mills which ground the last two crops might have the right to be assigned a quota in the present year's production. Several mills had objected to the agreement fixing the crop on an average for the last three years. On Feb. 7 cablegrams from Havana reported that President Machado had on that day signed a decree, upon the recommendation of the Secretary of Agriculture, ordering all sugar manufacturers established in Cuba to turn over their respective shares of sugar to make possible the segregation of 1,300,000 tons from the world market in accordance with the stipulations of the Chadbourne plan not later than Feb. 15. This sugar had to be from the output of 1929-30. It was asserted on Feb. 13 that Cuba had completed all enabling legislation necessary for carrying out the international agreement to curtail production and restrict exports. It had determined its quota of exports, the amount of sugar that will be segregated out of stocks and held in reserve for the time being, and the size of the next crop. Upon the return of Mr. Chadbourne to Europe, it was stated, he would sign the international agreements which were being drawn up by the various foreign subscribers to the plan. He was also expected to work out details of the proposed permanent commission which is to be created to administer the international agreement. President Machado had signed a decree on Jan. 31 regulating Cuba's sugar production for 1931 and limiting sugar exports to the United States to 2,577,000 tons instead of 2,800,000 tons as agreed to before Germany joined the international sugar curtailment agreement.

Coffee prices became further demoralized during Feb. and No. 7 Rio in this market was quoted as low as 5½@5⅝c. Feb. 28 against 6¾c. Jan. 31; 7¼@7½c. Dec. 31; 7½c. Nov. 29; 8½c. on Oct. 31; 7⅞@7½c. on Sept. 30; 6¼@6½c. Aug. 29; 7½c. July 31, and 8¾c. at the end of June. No. 7 Santos was down to 7¾@8c. Feb. 28 against 8¾@9c. Jan. 31; 8¾@9¼c. Dec. 31; 10@10½c. Nov. 29; 11@11¼c. Oct. 31; 10¼@11c. Sept. 30; 8¾@9¼c. Aug. 29, and at 10@10½c. July 31, as well as on June 30.

TRADE DEVELOPMENTS.

Very little progress was made during February in trade revival if, indeed, it can be said there was any further progress at all, after the recovery in January following the extremely low levels reached during the Christmas holidays in December. The developments in Washington, and particularly the enactment of the soldier bonus legislation, making a large prospective drain on Treasury cash, acted as a depressing influence, and the moderate weather all over the country acted in the same direction. The winter appears to have been exceptionally mild everywhere, which acted to the detriment of trade in seasonable lines of goods. At the end of February, temperatures were almost spring-like over much of the country, and, accordingly, the trade in heavy wearing apparel continued to lag. Spring trade appeared to show some gain, though more in the matter of sentiment and morale than in actual transaction. Retail sales revealed the fact that stocks of consumers' goods were at a low level. Retailers, nevertheless, kept buying very cautiously. The lumber trade and the textile trades certainly got into better shape, but this was mainly because of the radical and drastic curtailment of production. In lumber, for instance, shipments and orders were much in excess of output, but this was mainly because output had been so greatly reduced. From figures given out at the end of February it appeared that for the eighth consecutive week lumber orders had exceeded production by a substantial margin during the week ended Feb. 21, as indicated in telegraphic reports from 815 leading hardwood and softwood mills to the National Lumber Manufacturers' Association. The new business at these mills was 22% greater than the cut. Shipments were 16% above production which amounted to 194,409,000 feet. A week earlier 824 mills reported orders 22% above the cut of 191,232,000 feet. Similar ratios, it was stated, had been maintained since the Christmas holidays. On the other hand, however, reports by identical mills affording comparison with conditions a year ago showed: for softwoods, 483 mills, production 40% less, shipments 28% less, and orders 25% less than for the corresponding week in 1930; for hardwoods, 188 mills, production 41% less, shipments 35% less, and orders 27% under the volume for the corresponding week in 1930.

The story for the textile trades is much the same, that is, shipments and orders running well in excess of production, but away below the corresponding items in 1930. The New York Cotton Exchange service reported that many cotton mills in this country had sold such a large volume of cloth that they were now in a stronger position as to stocks and orders than at any other time since the spring of 1927. Total cloth sales, in recent weeks, it was stated, under date of Feb. 24, had been considerably in excess of total production during the same period, and on some lines of goods they had been the largest in any such period in several years, with contracts running into the summer. The price of cotton showed a further advance on top of the rise during January, spot cotton here in New York selling up to 11.35c. on Feb. 24 and closing at 11.20c. on Feb. 28, against 10.45 on Feb. 2 and 10.15 Jan. 2. Print cloths at Fall River for 28-inch 64x60 were marked up Feb. 26 to 4⅛c., after having been marked down Jan. 14 from 4⅛c. to 4c. The Association of Cotton Textile Merchants of New York, in its report issued Feb. 9, covering the four weeks of January, stated that sales of cloth during January had been 239,106,000 yards, equivalent to 118.3% of production, and that shipments had been 210,597,000 yards, or 104.2% of production; also that unfilled orders on Jan. 31 1931 were 317,465,000 yards, representing an increase of 9.9% during the month, while stocks on hand amounted to 355,514,000 yards Jan. 31, representing a decrease of 2.3% during the month. The United States Census reported the quantity of cotton consumed by the mills of the United States in January 1931 at 454,188 bales of lint and 49,346 bales of linters as compared with 576,160 bales of lint and 62,694

bales of linters in January 1930. One of the favorable developments of the month was the termination on Feb. 13 of the long-drawn-out tie-up in the Lancashire cotton industry, with the result that 300,000 weavers returned to work on Feb. 16. Peace resulted at a conference in which mill owners agreed to abandon the so-called more looms-per-weaver system with which they had experimented at several mills in Burnley. The lockout had been in effect since Jan. 17.

The wool industry also showed some indications of improvement. However, prices of rugs declined up to 8% on desirable Axminsters and 20% on cheaper grades of tapestry rugs at the first day sale on Feb. 9 of the auction of 45,000 bales of floor coverings conducted for the Alexander Smith & Sons Carpet Co. by their selling agents, W. & J. Sloane. Further declines were recorded on subsequent days, but the auction, the first at which Smith goods were offered since April 1928, was considered very satisfactory. A strike occurred in the combing rooms of the Washington, Ayer and Wood Mills of the American Woolen Co., on Feb. 21, but was settled on Feb. 26, when the men voted to return to work. Though only about 300 workers struck, the entire mills were forced to close down. Business in silk and silk goods slackened somewhat during February. Prices of raw silk again weakened. Japanese double extra 13-15 deniers were quoted at $2.70@$2.75 Feb. 28 against $2.85@$2.95 a yard on Jan. 31; $2.60@$2.70 Dec. 31; $2.35@$2.45 the previout Sept. 30, but $4.70@$4.75 Jan. 31 1930. In the 20-22 deniers Japanese crack double extra were quoted at $2.65@$2.70 on Feb. 28 against $2.85@$2.90 on Jan. 31; $2,70@$2.75 Dec. 31; $2.25@$2.30 on Oct. 31 but $4.60@$4.65 on Jan. 31 1930. Crude rubber after establishing new low levels braced up somewhat the latter part of the month. Mounting stocks were held responsible for the new break. Ribbed smoked sheets for spot delivery were quoted at 7⅝@7½c. Feb. 20, but recovered to 7⅝@7¾ Feb. 28, which compares with 7¾@8c. on Jan. 31 and 8⅜@8½c. on Dec. 31 and 15¾@15⅞c. on Feb. 28 1930.

In the steel market activity was slightly further increased with the mills of the country working to 52%@53% of capacity at the end of February as against 47% at the end of January. In its issue of Feb. 26 the "Iron Age" remarked that business from the automobile industry had shown further improvement, while specifications for line pipe, tin plate and track materials continued to increase, while releases from miscellaneous consuming lines were also in larger volume, but with caution the dominating note with most buyers and current orders are notable for their greater frequency rather than for their size. Prices for finished steel remained unchanged, the composite price March 3 standing at 2.142c. the same as a month earlier, and comparing with the low for the year of 2.121c. on Jan. 6. The composite price for pig iron per gross ton was $15.71 March 3 against $15.88 a month earlier and $15.90 Jan. 6 the high for the year. In its issue of March 6 the "Iron Age" described conditions as follows:

"Irregularities in the flow of orders, always more noticeable in a period of subnormal activity, continue to obscure the trend of business, particularly for manufacturers of a single product or a narrow range of products.

"Nevertheless, viewed as a whole, the impressive feature of the market is not the temporary setbacks experienced by some producers or the gains shown by others, but the sustained, though gradual, expansion in the total consumption of metal."

Sustained, though gradual expansion in consumption of steel, accompanied by a further slight increase in ingot output in the last week, and a 10% gain in pig iron production in February were viewed as reassuring factors.

In the non-ferrous metals some improvement in the prices of copper occurred the latter part of the month, after a further break in the early part. On Feb. 4 sales of copper were made at 9½c. a lb. delivered at the mills in Connecticut which was a reduction of ¼c. a lb., and brought the price back to where it was the previous November when the metal sold at the lowest price reached in 35 years. However, later in the month several increases occurred and the price of the metal got back to 10¼c., at which figure there appeared a good demand both on home account and for export. Here in New York electrolytic copper was reduced from 9.50c. to 9.25c. Feb. 5, but raised again to 9.50 Feb. 10 and then increased to 9.75 Feb. 11, to 9.87½c. Feb. 18, and to 10.00c. Feb. 19. Lake copper at New York was reduced from 9⅞c. to 9⅝c. on Feb. 5, increased again to 9⅞c. Feb. 10, further raised to 10⅛c. Feb. 11, advanced to 10¼c. Feb. 18 and to 10⅜c. Feb. 19. The price of lead in New York was reduced on Feb. 3 from 4.75c. to 4.60c. Feb. 4 and to 4.50 Feb. 5, but advanced again to 4.60 Feb. 19. Tin at New York fluctuated considerably as usual, but was 26.90c. Feb. 28 against 25.25c. Feb. 2. The Tin Producers Association issued an official statement on Feb. 4 denying that any breakdown had occurred in the international regulation of tin output, saying:

The Executive Committee of the Tin Producers Association announce that no credence need be attached to the rumors which are circulating to the effect that plans for international regulation of tin output had broken down. As is well-known, governments of Bolivia, Netherlands, East Indies and Nigeria have declared their readiness to accept and operate quota scheme. The Malayan Government a short time ago, issued a circular to the mining industry in Malaya inviting their opinion. The result of that inquiry showed that a large majority of the Malayan producers were in favor of the international scheme under the control of the Governments concerned. The Malayan Government expressed the view that control should cover production as well as export, and that the scheme, if adopted, should take effect in all countries on March 1. Both these suggestions have since been agreed to by the Governments in the three other countries. There is, therefore, every reason to believe that the Malayan Government will, like the Nigerian Government, recommend the agreed scheme for the approval of His Majesty's Government.

On Feb. 20 news came that the British Government had approved the international tin restriction scheme, his Majesty's Secretary of State making the following announcement in the House of Commons:

His Majesty's Government has approved in principle of the Malayan States and Nigerian Governments passing the necessary legislation to regulate the production and export of tin with effect from March 1 1931.

The approval is subject to the Secretary of State being satisfied as to the details of the international scheme and negotiations with the representatives of the Netherland East Indies Government and of the Bolivian Government and as to the understanding that the work of the restriction scheme is controlled by a committee of representatives of the four Governments concerned—Nigerian, Malayan States, Dutch East Indian and Bolivian—by which the consumer will be protected against any excessive rise in price.

In the case of petroleum and its products the feature was the rise in importance of the new fields in East Texas, which threatens to interfere with the prorating schemes, and the posting of very low prices by the independent operators in these East Texas fields, these prices of crude oil ranging from 32 to 40c. a barrel. The price changes of the month, both in the case of crude oil and in the refined products, are indicated in the following:

CRUDE OIL.

Feb. 4.—Effective this day, the Crew Levick Co., of Titusville, posted a price of $2 a barrel for oil purchased in the Oil City, Franklin and Titusville districts, Pennsylvania. This was an advance of 15 cents over the previous posting of $1.85 a barrel.

GASOLINE AND KEROSENE.

Feb. 4—Detroit.—Gasoline was cut 2 cents a gallon in the retail price by Standard Oil of Indiana. Other companies promptly met the cut, which was caused by local competitive conditions.

Feb. 6.—Effective this day, Texas Co. advanced the price of U. S. Motor gasoline one cent a gallon to eight cents a gallon, tank car lots, at the refinery, in New York, Philadelphia and Baltimore. New price is 8¼ cents at Providence and 8½ cents at Portland, Me.

Feb. 10.—Crew-Levick posted U. S. Motor gasoline at 7½ cents, an advance of one-half cent a gallon in the tank car market in New York and Philadelphia, meeting the recent advance of Texas.

Feb. 11.—Pan-American Tide Water Oil Co., Pure Oil Co., Atlantic Refining and Warner-Quinlan advanced the posting for U. S. Motor gasoline one-half cent to 7½ cents a gallon in the tank car market. Shell Eastern Petroleum raised the price 1c. and are now quoting at 8 cents a gal.

Feb. 13.—Standard Oil of New Jersey announced an advance in gasoline of one-half cent a gallon in the tank car market, effective Feb. 14, meeting the increases posted by other refiners.

Chicago, Feb. 13.—Standard Oil of Indiana cut the service station price of gasoline 2 cents. Other major companies promptly met the cut which was due to local competitive conditions.

New York, Feb. 17.—Standard Oil of New York advanced the tank car price of gasoline ½c. a gallon to meet the recent general advance.

New York, Feb. 20.—Standard Oil of New York reduced the tank wagon price of gasoline one cent a gallon. Texas, Gulf, Tidewater Oil and Richfield Oil promptly met the cut.

Los Angeles, Feb. 25.—Standard Oil of California reduced the retail prices of gasoline 2 cents a gallon throughout the State. The cut was promptly met by all large companies operating in California.

THE DECLINE IN SILVER.

Further declines in the price of silver to new low levels in all time occurred during the month seriously disturbing exchanges on the Far East and leading to movements to see what could be done in the way of arresting the depreciation in the metal, which is such an important currency unit with large sections of the East and some other countries like Mexico. In London the price dropped on Feb. 9 to 12d. per oz. On Feb. 20 the U. S. Senate adopted without debate a resolution suggesting that President Hoover negotiate with other countries to prevent the debasing of silver coin and the dumping of silver on the world markets. Three recommendations for improving trade with China and restoring the price of silver were made to the Senate Foreign Relations Committee on Feb. 11 by a subcommittee which had been studying the questions for a year. Associated Press dispatches from Washington, summarizing the recommendations, said:

Negotiations with Great Britain to suspend the policy of dumping silver from India; an international conference to reach an understanding with respect to the use of silver as money, and an international silver loan to China, were the points urged.

"The chief cause for the abnormal and sudden decrease in our commerce with China during the latter part of 1929 and 1930 was the sudden great and unprecedented fall in the price of silver," the Committee said, pointing out China's purchasing power had been cut in half by the metal's drop.

Not overproduction, but oversupply of silver, resulting from the dumping of large quantities of bullion in India, and debasement of silver coins in Great Britain, France and Belgium, was blamed for the situation.

"It is impossible," the Committee reported, "to accomplish restoration of the normal purchasing power of silver or to prevent its continued decrease in purchasing power and its continued instability as a basis of credit unless and until the British Government for India announces a determination to suspend its present policy."

The silver loan to China was proposed as "an additional and special remedy for the depressed condition of our commerce with China."

"If we can aid China in her internal development," the Committee reported, "and furnish her people with employment, they will for years furnish us a market for a large portion of our surplus production. It was testified before our subcommittee by exporters who know China and its customs that with the pacification and revivification of China our entire wheat surplus would be consumed."

The Committee suggested the loans to China be made on the basis of ounces rather than silver dollars because of difficulty in establishing a price.

On Feb. 20 the United States Senate adopted a resolution requesting President Hoover to call an international conference "to the end that agreements or understandings may be obtained with respect to the uses and status of silver as money." The resolution also suggested negotiations with other countries to prevent the "abnormal fluctuations and depressions in the price of silver." The resolution as agreed to by the Senate follows:

Resolved, That the Senate, having had under investigation and consideration, through its Committee on Foreign Relations and a subcommittee thereof, our commercial relations with China, the causes of the great and sudden depression in such commerce and remedies for such depression, and such Committee having reported to the Senate, the Senate submits to the President the reports, hearings and other data in respect thereto, with the respectful suggestion that he shall, if he deem it compatible with the best interests of the Government, enter into discussion or negotiation with governments looking to the suspension of the policy and practice of government, of melting or debasing silver coins and sales by governments of silver, and that he take such other and further action in the premises as he may deem necessary to eliminate the abnormal fluctuations and depressions in the price of silver.

The Senate further respectfully suggests that the President, if he deem it compatible with the best interests of the Government, call or obtain an international conference, or international conferences, to the end that agreements or understandings may be obtained with respect to the uses and status of silver as money.

Because of the decline in silver, the Mexican Government found itself obliged to postpone for two years gold payments on its indebtedness. In a statement issued Jan. 30 by Thomas W. Lamont of J. P. Morgan & Co., Chairman of the International Committee of Bankers on Mexico, it was made known that under a new agreement entered into between the Committee and the Mexican Minister of Finance, Montes de Oca, the Mexican Government will be permitted "to postpone the necessity of making gold payments on its indebtedness for a period not to exceed two years while still retaining the other main features of the agreement of July 25 1930." The statement given out by Mr. Lamont in announcing the two year suspension of gold payments, said that "meanwhile the Mexican Government will under the terms of the new agreement pay to the committee in silver pesos the equivalent of the payments scheduled for 1931 and 1932 the total amount of $25,500,000 United States gold, as provided in the agreement of July 25 last, including the $5,000,000 previously deposited under the agreement, which will be converted into silver for such purpose. This silver will be lodged in a responsible depositary in Mexico City." The new agreement, it was indicated in the statement, results from the decline in the value of the Mexico silver peso, by reason of which the Government's "capacity to pay in gold has decreased so greatly that it cannot possibly within the limit of the budget revenue and requirements provide the amount of gold called for under such [July 25] agreement."

THE FEBRUARY FINANCING OF THE UNITED STATES TREASURY.

Following close upon the heels of the sale of $60,000,000 90-day Treasury bills on Jan. 30, which, as pointed out in our "Bank and Quotation Record," issued Feb. 6, and covering the month of January, and which elicited subscriptions aggregating $327,805,000, only just $60,000,000 of which were accepted, the Secretary of the Treasury on Sunday night, Feb. 8, gave notice of a new offering of bills to the amount of $150,000,000, "or thereabouts." They were 91-day bills, to be dated Feb. 16 1931, and to mature on May 18 1931. Tenders were invited up to 2 o'clock p. m. Eastern Standard time, on Friday, Feb. 13. Tenders for the bills aggregated $346,532.000, and out of this amount $154,218,000 were allotted at an average of 99.695, this being an average rate on a bank discount basis of about 1.21% per annum. This was not as good as the exceptionally low rate realized at the sale of $60,000,000 of bills on Jan. 30, when the average rate to the Government on a discount basis was only 0.95% per annum. On the present occasion the highest bid received was 99.783, equivalent to an interest rate of about 0.86% on an annual basis. The lowest bid accepted was 99.671, equivalent to an interest rate of about 1.30% on an annual basis.

Another very important announcement, having an important bearing on any sale of Treasury certificates of indebtedness or of bonds that the Government might make in its March financing, also came from the Treasury Department during the month. For the second time in recent months the Secretary of the Treasury lowered the rate of interest which the banks have to pay on Government deposits representing the proceeds of sales of certificates of indebtedness or other war loan deposit accounts. On Feb. 9 he gave notice that, effective Feb. 16, each depositary would be required to pay interest at the rate of only 1% per annum on daily balances held instead of the previous 1½%. Only a short time previously this rate had been lowered from 2% to 1½%. It may be recalled that on Nov. 26 1930 a circular came from the Treasury Department at Washington stating that beginning with Dec. 1 1930 the interest required to be paid on such deposits would be only 1½% per annum against the previous 2%. Thus in the short space of 11 weeks the interest on these special Government deposits was cut exactly in two, the first reduction (Dec. 1) having been from 2% to 1½%, and the second, or present reduction (effective Feb. 16 1931), having cut the rate from 1½% to 1%.

While these reductions in the rate of interest to be paid on Government deposits reflected the great ease prevailing in the money market under which rates for all classes of loans had declined to inordinately low figures, the reductions were also important, as already stated, in their bearing on the sale of Government obligations that the Treasury Department might make in its March program of financing, since, as frequently explained here, it is the practice of the Treasury Department to allow the proceeds of the sales of Treasury certificates or other war loan obligations to remain on deposit with the banks through whom or on behalf of which the subscriptions are made, and to draw these Government deposits down only as needed from time to time. But on such deposits the depositary banks are obliged to pay interest to the Government for the time during which the deposits are retained. Obviously the lower the rate of interest which the depositary banks are obliged to pay on the Government deposits received by them as the result of the sale of Government obligations, the lower the rate of interest the Secretary may name in the new obligations to be put out while yet leaving them attractive to the banks in making subscriptions, since in all cases where the banks subscribe for their own account they stand to make the difference between the rate of interest they have to pay for the deposits and the rate of interest carried in the new issues. On the other hand, where the banks subscribe for customers and patrons and get the proceeds of the subscriptions for the new issues as special deposits, and then undertake to make a profit by loaning the amount of the deposits (against which they are not obliged to maintain any reserves) out in the open market, the same as ordinary deposits, the lower the interest rate required to be paid to the Government the greater the chance of netting a profit through the operation.

The lowering of the interest rate on the Government deposits foreshadowed a low interest rate again in the certificates of indebtedness to be offered in connection with the Treasury's March financing, even though there should not be a full saving to the extent of the ½% reduction in the rate of interest required on the Government deposits. And this view was borne out when the details of the Government's March financing were made known on Sunday night, Mar. 1. At the sale of certificates in December (after the interest on Government deposits had been lowered from 2% to 1½%) the Secretary reduced the rate on the certificates he then offered running for a year to 1⅞%, which was exactly ½ of 1% less than the 2⅜% interest carried by the certificates sold the previous September, also running a year, and he cut the rate on the six months certificates which he was offering to 1¼%, a reduction in that case of ⅝ of 1% as compared with the 2⅜% interest borne by

the certificates put out at the sale the previous September, and which, it should be stated, was the lowest rate which had ever been named up to that time in any issue of certificates. In his present March financing, after the second reduction of ½% in the rate of interest on Government deposits, he provided for a six months issue of certificates for amount of $300,000,000 carrying only 1½% interest per annum, and a 12 months issue for $600,000,000, "or thereabouts," bearing 2% interest, besides a Treasury bond offering for $500,000,000 carrying 3⅜% interest. The six months issue of certificates is dated Mar. 16 and matures Sept. 15 1931; the 12 months issued is also dated Mar. 16, and will mature Mar. 15 1932. The Treasury bonds are dated Mar. 16 1931 and will mature Mar. 15 1943, but redeemable at the option of the United States on and after Mar. 15 1941. The two series of certificates are exempt from the surtaxes, but not the Treasury bonds. It is really a clever combination whose success was assured in advance. In this total of $1,400,000,000 of new issues only $291,000,000 was allowed to meet the probable demands of the World War veterans for 50% loans on their adjusted service certificates; $1,100,000,000 was allowed to take up the 3½% Treasury notes called for redemption on Mar. 15.

NEW SECURITY ISSUES AND DIVIDENDS IN FEBRUARY.

Foreign government and foreign corporate financing in February continued on a diminished scale and consisted of the following:

FOREIGN FINANCING.

$6,500,000 **West Kootenay Power & Light Co., Ltd.**—1st mtge. s. f. g. bonds, series A 5% at 97½ and int., to yield 5.18% and due March 1 1956. By the National City Co., Ltd., and Hanson Bros., Inc., Montreal.

5,000,000 **British Columbia (Prov. of)** 4¼% bonds, due Feb. 15 1936, purchased by a syndicate formed by Dillon, Read & Co., of New York, at 98.40, a basis of about 4.51% and reoffered at 99.33, to yield 4.40%.

4,836,000 **Toronto, Ont.,** 4½% bonds, comprising eight issues, due serially from 1932 to 1961 incl., purchased by a group managed by the First National Bank, of New York, at 99.17 a basis of about 4.579%. Reoffered at prices to yield from 3.50 to 4.50%, according to maturity.

3,000,000 **Saskatchewan (Prov. of)** 3½% notes, due Feb. 16 1932, sold at private sale to a group headed by the Dominion Securities Corp., of Toronto at 99.51, a basis of about 4%. Reoffered at a price to yield 3½%.

Offerings [of] domestic securities [in February showed a marked decrease as compared with Jan. Municipal financing, however, was heavier than in previous month and led the list with the $30,325,000 Chicago, Ill. offering, which consisted of $27,325,000 4% bonds sold at 96.658, a basis of about 4.57%, and $3,000,000 5% water revenue ctfs. at 99.625, a basis of about 5.03%, for one-half the issue, and at 99.50, a basis of 5.08% for the remainder. Another offering of size was the $15,000,000 issue of Central Illinois Electric & Gas Co. 1st & ref. mtge. 5% series gold bonds at 94½ and int., yielding 5.45%. The month's financing, classified as to nature of business and size of issue, is shown below, the table including only issues of $5,000,000 and above:

RAILROAD FINANCING.

$8,000,000 **Pere Marquette Ry.**—Additional issue of 1st mtge. 4½% gold bonds, series C at 99½ and int, due March 1 1930. By J. P. Morgan & Co.: First National Bank; Guaranty Co. of New York; National City Co.; J. & W. Seligman & Co., and Chase Securities Corp.

PUBLIC UTILITY FINANCING.

$15,000,000 **Central Illinois Electric & Gas Co.**—1st & ref. mtge. 5% series gold bonds at 94½ and int., yielding 5.45% and due Feb. 1 1951. By a group headed by Harris, Forbes & Co. and including H. M. Byllesby & Co., Inc.; Central-Illinois Co., Inc.; Chase Securities Corp.; Continental Illinois Co., Inc.; West & Co.; E. H. Rollins & Sons, Inc.; and Albert E. Pierce & Co., Inc.

6,000,000 **Cleveland Ry.**—1st mtge. 2-yr. 5% gold bonds at 100 and int., due March 1 1933. By Hayden, Miller & Co.; Union Cleveland Corp.; the Cleveland Trust Co.; Midland Corp.; the Guardian Trust Co. and Central United Co.

6,000,000 **Louisville Gas & Electric Co. (Ky.).**—Additional issue 1st & ref. mtge. 4% gold bonds, series C at 97 and int. to yield over 4.68% and due Feb. 1 1961. By Harris, Forbes & Co.; H. M. Byllesby & Co., Inc.; W. C. Langley & Co.; Guaranty Co. of New York; A. C. Allyn & Co., Inc., and J. Henry Schroder Banking Corp.

MUNICIPAL FINANCING.

$30,325,000 **Chicago, Ill.,** bonds, awarded as follows: $27,325,000 4s, comprising 12 issues, due serially from 1933 to 1950 incl., sold to a group managed by Halsey, Stuart & Co., of Chicago at 96.658, a basis of about 4.57%. Reoffered to yield from 4.10 to 4.40%, according to maturity; $3,000,000 5% water revenue ctfs., due serially from 1940 to 1949 incl., $1,500,000 were awarded to A. C. Allyn & Co., of Chicago at 99.625, a basis of about 5.03%, and reoffered to yield 4.75%. A group headed by the First Union Trust & Savings Bank of Chicago, paid 99.50, a basis of about 5.08%, for the remaining $1,500,000.

15,000,000 **Louisiana (State of)** 4½% highway bonds, due serially from 1934 to 1955 incl., awarded to a group managed by Harris, Forbes & Co., of Chicago, at 100.11, a basis of about 4.49%. Reoffered priced to yield from 4.00 to 4.40% for the maturities from 1934 to 1949 incl., and at 100.50 for the bonds due from 1950 to 1955 incl.

THE COURSE OF THE STOCK MARKET DURING FEBRUARY 1931.

Activity and strength, with sharp advances in prices, which, in not a few instances, carried quotations back above the low point reached during the panic in October-November 1929, marked the course of values on the Stock Exchange during February. This was in continuation of the upswing in prices during January, and was all the more noteworthy on that account. A spirit of great enthusiasm developed, and as prices continued their upward movement the market at times assumed a positively buoyant aspect. Dealings also kept growing in volume, and there were indications of more or less participation in the trading on the part of the outside public. In the early days of the month, dealings on the New York Stock Exchange did not reach much above a million shares a day, but after the first week they ran for several days in excess of 4,000,000 shares, aggregating 4,126,145 shares Monday, Feb. 9; 4,760,425 shares Tuesday, Feb. 10, and 4,698,960 shares on Wednesday, Feb. 11 (the day before the Lincoln Birthday holiday), and then, after some slackening of the pace for a week or more, mounting to 5,345,710 shares on Tuesday, Feb. 24 (after the holiday on Monday, Feb. 23, in celebration of Washington's Birthday, which occurred on Sunday and was therefore kept as a holiday on Monday, Feb. 23). Thereafter dealings again tapered off, but only slightly, footing up on Wednesday, Feb. 25, 4,388,062 shares; on Thursday, Feb. 26, 4,623,239 shares, and on Friday, Feb. 27, 3,724,674 shares, with prices, however, decidedly reactionary at the half-day session Saturday, Feb. 28, when the dealings for the two hours' business amounted to 1,747,875 shares, the weakness on this last day of February foreshadowing the sharp break in the market which came in the early days of March. There appeared really no adequate reason for the great buoyancy and brisk advances in prices which occurred during February. Probably the superabundance of banking credit and the inordinately low money rates were the most potent factor in the large and general rise in prices. At the same time the technical condition of the market doubtless served as a strong aid. Evidently weak accounts had been thoroughly liquidated in the big break in the market the previous November and the early part of December, and it was now easier to bring about advances than declines, besides which the facility with which prices moved upward scared bear operators and induced extensive covering of outstanding short accounts.

As far as the state of trade and industry was concerned, there were a few favoring developments, but also some of a less assuring nature. Steel production, according to the trade papers, continued to show a slow increase, and much was made of the fact that the unfilled orders on the books of the U. S. Steel Corp., made public after the close of business on Tuesday, Feb. 10, showed a further increase during the month of January of 188,755 tons, this being the fourth consecutive month recording an increase, and the addition for the four months together being 708,013 tons. Besides this, there was at times more or less talk of staging another advance in steel prices. In the copper trade the action at the beginning of the month of the custom smelters in making sales of the metal at as low as 9½c. a pound for copper delivered in Connecticut was a depressing influence in the early days of the month, but when this changed and the price of copper, later in the month, by successive steps rose to 10¼c., with a good demand for the metal both on domestic account and for export, the copper stocks became leaders in the upward movement. A slow but steady advance in the price of cotton was also hailed with much satisfaction; and encouragement was likewise at one time derived from the recovery in grain prices—that is, the future options not under the influence of the operations of the Federal Farm Board—though the situation in that respect was altered for the worse the latter part of the month, when the grain market again suffered a setback as it became known that the Farm Board contemplated disposing of about 35,000,000 bushels of its unwieldy accumulations of wheat. The further decline in the price of silver, to new low records in all time, could not be viewed with favor, but was disregarded in the stock market, and the weekly reports of car loadings, with the heavy falling off that they disclosed from the loadings of the corresponding weeks in both 1930 and 1929, were far from suggesting that any great revival of trade was already at hand. A very strong feeling prevailed nevertheless that trade would before long show considerable recovery. Then, also, the poor income statements that kept coming in for the December quarter in the case of industrial concerns, accompanied by some dividend reductions, and for the month of January in the case of the railroads were not calculated to promote a cheerful feeling, but the market ignored them until the very close of the month, when the startling losses registered by the railroads in their January returns served as a new eye opener of the unfortunate condition in which the country's great transportation agencies were finding themselves. They suggested that dividend reductions might be quite imminent. The railroad list shared in the early advance, but these bad returns for the month of January, which began to come in during the closing week of February, exercised a dampening influence, which it was impossible to resist. Both the Pennsylvania RR. and the New York Central showed losses in gross earnings for the month as compared with January 1930 in the neighborhood of $10,000,000, or, to be precise, the Pennsylvania RR. for the month reported a decrease in gross of $10,282,720 and a loss in net (before the deduction of the taxes) of $3,418,706, while the New York Central fell behind $9,318,885 in gross and $3,408,404 in net. Doubt was now expressed—at the extreme end of the month—that even the New York Central could maintain its dividend rate, while it seemed a matter of course that roads like the St. Louis-San Francisco would have to sharply cut their dividends or suspend them altogether. As to this last-mentioned road it showed gross earnings of $4,649,694 in January 1931 against $6,259,266 in January 1930, and $6,882,892 in January 1929, and had net operating income (after the deduction of taxes) of no more than $665,518 in January 1931 against $1,172,262 in January 1930, and $1,495,688 in January 1929.

Soldier bonus legislation, and Congressional legislation generally, hung as a cloud over the market, but was largely ignored except in the early days of the month, and except, also, that occasionally some incident connected with the proposed legislation served temporarily to hold the rising tendency under restraint. One incident of the kind referred to occurred on Wednesday, Feb. 11, when the market, after a further sharp rise in the four hours of the session up to 2 o'clock, suffered a serious setback in the last hour, owing to some remarks made by Under-Secretary of the Treasury Ogden L. Mills in prefacing a prepared speech on the cash bonus proposal then under consideration by Congress. The address was delivered at the luncheon of the Bond Club in this city, and Mr. Mills introduced the address by remarking: "I am sorry to say that you are going to hear much more in the course of the next 48 hours about these proposals, and I am not entirely sure that the news is going to be as good as you might have anticipated from the statements that have appeared in the press." Mr. Mills also indicated that the United States Treasury for the fiscal year ending June 1931 would show a deficit of "not less than half a billion dollars." But this, while causing a sharp reaction in the stock market in the last hour of business on Feb. 11, served as only a temporary check to the upward movement which after a short interval resumed its course with growing intensity. It is to be said that the amount involved in the cash payments required under the Soldier Bonus Bill in the form it finally took was much smaller than that which would have been required had the original proposition to cash the whole of the adjusted service certificates prevailed, the requirements under the change being estimated at $1,000,000,000 as against the former $3,400,000,000. This $1,000,000,000, notwithstanding its magnitude, it was assumed that the Treasury would be able to provide somehow, even though the process might prove burdensome. It happened, too, that the different issues of United States Government obligations showed further recovery after the break in the same in January, indicating confidence that the Treasury would be able to manage the job satisfactorily.

As indicating in a general way the course of stock prices during the month the 50 selected stocks which form the basis of the general averages that the New York "Times" has been keeping for so many years, sold up to 173.07 on Feb. 24 and closed Feb. 28 at 167.80 as against 153.41, the close on Jan. 31. The averages for the 25 railroad stocks, forming part of the 50, showed only a very moderate rise. These reached a high of 94.93 Feb. 24 and closed Feb. 28 at 92.15, against 91.93 the close on Jan. 31 On the other hand,

t average of the 25 industrial stocks reached a high of 2 .22 Feb. 24 and closed Feb. 28 at 243.46 as against a c :e of 214.90 on Jan. 31. The sales for the month on the 2 v York Stock Exchange reached a total of 64,181,836 s res, which compares with 42,503,382 shares in January, 1 with 67,834,100 shares in February 1930 and 77,968,730 s res in February 1929. On the New York Curb Exchange t sales for February 1931 aggregated 11,939,237 shares s against 9,348,900 shares in January, but comparing with 1 329,575 shares in February 1930 and 29,886,750 shares in))ruary 1929. As to the bond market, Government bonds were weak he early part of February, but recovered somewhat the atter part. The general bond market was firm and higher n the case of high-grade issues, but lower for the second- rade issues. Foreign government issues suffered sharp eclines in the case of some of the Latin American countries, ut were higher for some of the European countries, like he German International 5½s. THE MONEY MARKET DURING FEBRUARY 1931.

There was during February no abatement of the extreme ease prevailing in the money market. And the developments of the month were only manifestations of the presence of this extreme ease. All the underlying conditions responsible for the ease remained unchanged. The revival of activity on the Stock Exchange served to increase somewhat the demand for accommodation from that quarter, which was reflected in an increase in brokers' loans after the first week of the month, but the expansion in such loaning was only moderately large, and, moreover, it came after a long period of great shrinkage in Stock Exchange borrowing, and was not of sufficient important to make any impression upon the money market in the state of congestion prevailing. The same may be said of the Soldier Bonus legislation in its effects upon the money market, near and remote. It was recognized that this would complicate Treasury financing and constituted an exceedingly regrettable feature in the general financial situation and might even have the effect, later on, of retarding trade revival because of the menace of increased taxes which it carries, but it was, nevertheless, felt that with monetary congestion so pronounced and so abnormal as now existing no apprehension need be entertained of any great change in money conditions, at least for the immediate future. In the form which the Soldier Bonus legislation finally took, it was estimated that it would ultimately require cash payments out of the Treasury in amount of about $1,000,000,000, and as the

Secretary of the Treasury had six months before called for payment on Mar. 15 1931, somewhat over $1,100,000,000 of 3½% Treasury notes, that the problem of Treasury financing at a time when Treasury tax receipts were running low by reason of trade depression, was thereby being complicated and rendered more difficult and yet no one doubted that Secretary Mellon would be able to meet the demands of the situation without involving any disturbance to the money market. This proved to be the case. It was evident too, that the Treasury still had considerable amounts of cash available for immediate needs. This was evident more especially from the fact that it still had a considerable amount of deposits with the banks representing the proceeds of the certificate sale made the previous December. It was pointed out by us in our review of the money market for January that at the time of the sale of these certificates on Dec. 9, when the allotments aggregated $428,322,000, government deposits to a total of $309,972,400 resulted, of which $79,291,000 was held by the banks in the N. Y. Federal Reserve District. We also pointed out that at the end of January $128,360,900 of these Government deposits still remained on deposit with the banks throughout the country, of which $32,603,200 was on deposit in the N. Y. Federal Reserve District. The further calls on these deposits during February, of which there were three during the month, namely on Feb. 3, Feb. 6, and Feb. 24, aggregated only $27,321,100, leaving therefore still $101,039,800 of these deposits at the end of February. These deposits tend to maintain ease in the money market, as the banks are not obliged to hold any reserves against them. In another call on Feb. 27, however, the banks were required to repay 30% of these deposits Mar. 3 and another 30% Mar. 4, and in a call issued Mar. 3 they were required to repay the remaining 40% on Mar. 6.

The new manifestations of ease, to which reference has been made above as having developed during February, were in the announcement by the U. S. Treasury on Feb. 9, that effective as of Feb. 16, the banks acting as special depositaries for the Government, would be required to pay interest of only 1% per annum, as against the previous 1½%. The previous Dec. 1, this rate on Government deposits had been marked down from 2% to 1½%. Another manifestation of the prevailing ease was seen, when on Friday Feb. 6, the N. Y. Clearing House association announced that the interest rate on certificates of deposit and on time deposits for 30 days by the N. Y. Clearing House banks would be reduced from 2% to 1½% effective Monday, Feb. 9. Along the same lines, the informal committee of bankers that regulates interest rates paid by local banks on foreign deposits voted on Feb. 11, to reduce the rate on demand deposits of foreign central banks, governments and other foreign depositors from 1½% to 1%, bringing this rate into conformity with the Clearing House rates on domestic demand deposits. The rate on foreign time deposits, was continued at 2%. On Jan. 10, the rates on foreign deposits had been reduced to 1½% in the case of demand deposits and from 2½% to 2% in the case of time deposits.

Call loans on the Stock Exchange during the entire month of February did not at any time deviate from 1½%, this having been the rate on each and every day of the month, in the case of both renewals and of new loans. Moreover with the exception of Feb. 16 and Feb. 17 funds constantly overflowed into the outside or "street" market where loans could be obtained at a concession of ½ of 1% from the Stock Exchange rate, that is at only 1% per annum. Time money ruled dull throughout the whole month and transactions in the same were few and unimportant. This was largely because it was possible to borrow at even lower rates in other divisions of the money market. The latter part of the month quotations for 30 day loans were entirely eliminated. Loans for other periods remained virtually unchanged. The rate for 90-day loans did not change at all the entire month from 1¾ @ 2%, nor did the rate for 4 months loans change at any time from 2 @ 2¼%. In the case of loans for 5 months and 6 months there was a change on Feb. 24 (after the holiday on Feb. 23, in the celebration of Washington's birthday which this year came on Sunday) from a range of 2¼ @ 2½% to the single figure of 2½%. There were some minor changes also in the rate for 60 day loans, which during the second and third weeks of the month were quoted at 1¼ @ 1½% as against 1½ @ 1¾ in the first week of the month and again in the last week of the month. The daily record for time loans is shown in the table which follows.

Commercial paper continued in brisk demand through the whole month and a much larger volume of business co have been done if the paper had been available. The dem for this class of accomodation was especially keen at time from New England and the Central West. Rates choice names of 4 to 6 months maturity ruled at 2½ throughout the entire month while names less well-kno passed at 2¾ @ 3%. The N. Y. Federal Reserve Bank discussing the paper market in its "Monthly Review" sa

"Reflecting the limited volume of paper available in market, the amount outstanding through the 20 deal reporting to this bank declined 9% further during Janua The Jan. 31 outstandings of $327,000,000 were 19% bel the figure for the corresponding date in 1930, the first ye to-year decline to be shown in 12 months. Not since 1 have January outstandings failed to show some incre over the figure for December, which usually marks seasonal low point."

The market for bankers' acceptances was somew erratic during February. The demand for acceptan remained very keen the first half of the month, but latter part of the month the market became dull and inquiry for bills diminished. Rates were reduced ⅛ of on Tuesday, Feb. 3, and again ⅛% on Friday, Feb. 6, both the bid and the ask columns for all dates, but t were advanced again ⅛% for all maturities on Saturd Feb. 14, indicating a sudden change in the situation, Sat day being a very unusual day for making changes, and w advanced another ⅛% on Thursday, Feb. 19, so that ra at the end of the month were the same as at the beginni namely, 1⅝% bid and 1½% asked for bills running 30 d 60 days, and 90 days; 1¾% bid and 1⅝% asked for days, and 1⅞% bid and 1¾% asked for 150 days and 180 days. This last brought the rates back to where t were once more in harmony with the buying rates of Federal Reserve Bank. The latter did not follow the m ket down in the two reductions in rates the early part the month. The Reserve Bank throughout the month k its purchasing rate at 1½% in the case of bills runn from 1 to 45 days, and at 1⅝% in the case of bills runn from 46 to 120 days. In the early part of the month, w the buying rate of the Reserve Banks was above that the market rate, the acceptance holdings of the Rese Banks continued to decline, but the latter part of month, with the open market rate for acceptances o more moved higher, these holdings were again increa Between Jan. 28 and Feb. 11 the acceptance holdings the 12 Reserve institutions declined from $120,241,000 $87,739,000, while in the two weeks following, to Feb. they increased again to $106,317,000. The holdings of b purchased by the Reserve Banks for their foreign co spondents varied somewhat from week to week, but w $453,814,000 Feb. 25 against $442,435,000 Jan. 28. American Acceptance Council, in its statement issued J 17, reported a decrease of $35,776,318 in the volume of acc ances outstanding, following a decrease of $15,451,473 December, but still leaving the total Jan. 31 at $1,520,189,5 This compares, however, with $1,692,793,891 in Janu 1930, when the volume was at record figures. A feat was that the accepting banks were holding an increas amount of acceptances in their own bill cases. On Dec the accepting banks reporting to the American Accepta Council held in their own bills and of purchased bills

r banks a total of $371,452,274, while on Jan. 31 this had increased $199,950,662 to a new high of ,402,936.

E RETURNS OF THE FEDERAL RESERVE AND MEMBER BANKS—BROKERS' LOANS.

After a long period of contraction, brokers' loans on the curity of stock and bond collateral again began to record creases during the last three weeks of February. In the ek ending Feb. 4, the returns by the reporting member nks in the New York Federal Reserve district still showed decrease, the total falling from $1,734,000,000 Jan. 28 to ,716,000,000 Feb. 4. But in the week ending Feb. 11 the tal increased to $1,749,000,000, and it further increased $1,772,000,000 Feb. 18, and still further to $1,798,000,000 eb. 25. The increase was entirely in the loans made by e reporting member banks on their own account, these anding at $1,267,000,000 Feb. 25 against $1,089,000.000 an. 28. On the other hand, the loans for outside account ntinued to decline, these outside lenders finding no attrac- on in brokers' loans with the call loan rate on the Stock xchange no higher than 1½% and with the rate in the Street" market even lower, or at only 1%. Loans made for ccount of out-of-town banks fell from $328,000,000 Jan. 28 $260,000,000 Feb. 25, and loans "for account of others" om $317,000.000 to $271,000,000 between the same dates.

The N. Y. Stock Exchange's own figures for the even nonth of February also show an increase after a long period f contraction. According to this statement, "total net loans y N. Y. Stock Exchange members on collateral, contracted or and carried in N. Y. increased from $1,720,345,318 at he close of business Jan. 31, to $1,839,756,058 Feb. 28. Pre- iously there had been an uninterrupted decrease in these nonthly totals ever since April 30, of the previous year, hen the amount of Stock Exchange borrowing stood at 5,063,131,359."

There were no noteworthy changes during February in the tatements of the 12 Federal Reserve Banks. The volume of Reserve credit outstanding, as measured by the bill and ecurity holdings, was somewhat further reduced, with the otal Feb. 25 at $895,607,000, against $945,405,000 Jan. 28. The iscount holdings of the 12 Reserve institutions, representing irect borrowing by the member banks, after increasing rom $215,137,000 Jan. 28 to $222.917,000 Feb. 4, thereafter ecreased and were down to $189,847,000 Feb. 25. The accept- nce holdings were governed by the open market conditions or acceptances and the buying rate of the Reserve banks for cceptances. The latter as explained above, did not follow he open market rates downward in the early part of the nonth. The acceptance holdings declined from $120,241,000 Jan. 28 to $87,739,000 Feb. 11, but then increased to $106,317,000 Feb. 25. Holdings of U. S. Government securities at the same time were somewhat reduced and Feb. 25 stood at $599,443,000 against $609,877,000 Jan. 28. The amount of Federal Reserve notes in circulation fell from $1,478,302,000 Jan. 28 to $1,448,416,000 Feb. 25, and gold reserves were also somewhat lower, at $3,081,322,000 Feb. 25, against $3,091,714,000 Jan. 28.

COURSE OF STERLING EXCHANGE DURING FEBRUARY.

Sterling exchange pursued a somewhat erratic course dur ing February. It advanced sharply the first 10 days of the month during which period cable transfers on London rose from 4.85⅝ Feb. 2 (Feb. 1 having been Sunday) to 4.86¼ Feb. 10, but thereafter again moved downward, touching 4.85½ Feb. 14, and thereafter moving irregularly upward, with the range Feb. 28, 4.85¾@4.85 25-32. The abrupt decline in sterling which occurred on Feb. 13 and Feb. 14, involving an almost complete reversal of the exchange situation, was attributed to speeches made by the British Chancellor of the Exchequer, Phillip Snowden on Feb. 11. Mr. Snowden made a declaration on British national finances which strongly hinted at the necessity for increase in the tax on capital. He asserted that heavy sacrifices must be made. These remarks caused a sudden stop to the flow of funds from New York, which previously had been a strengthening influence. Indeed somewhat of a reverse movement of funds, away from the London market, occurred. However, the Bank of England during the course of the month succeeded in bringing about a stiffening in open market bill rates with the effect of holding these open market rates for bills much above the rates for acceptances at New York., even after the rise in acceptance rates here the latter part of the month. Three months' bills in London were quoted at the end of February at 2 11-16@2¾%, while 90-day acceptances in this market were quoted at 1⅝% bid and 1½% asked. Stress was also laid upon the increasing co-operation between London and Paris, several conferences having taken place between the officials of the Bank of England and the Bank of France. The New York Reserve Bank was also understood to be working in harmony with the plan. At the end of January three months bills in London had been quoted at 2 7-16@2½%; at the end of February the quotation was 2 11-16@2¾%. A Communique issued at the third conference of the Anglo-French treasury officials on Feb. 24 emphasized the general desire to work together for the common interest and this caused a good impression, not only in banking circles in London, but also on the Continent, although it implied that no new measures were contemplated beyond the continuance of the policy of keeping money rates higher in London than in Paris. The forcing up of bill rates in London was due, it is believed, altogether to moral suassion brought to bear on the London market by the Bank of England, rather than the result of an increased demand for commercial credit. French takings of gold at the Bank of England ceased and the Bank was able to add to its gold holdings in all but one of the different weeks of February. The Bank's statement for the week ended Feb. 4 recorded a gain of no less than £899,025 in gold, being the first upturn since Nov. 5 1930. This was followed by a further gain of £206,898 in the week ended Feb. 11. In the week ended Feb. 18 the Bank suffered a small loss, namely £40,496, but in the week ended Feb. 25, it had a new gain to its credit in amount of £385,887. The gold flow from London to France appeared to have been checked except for the fresh consignments of new gold from South Africa which for the most part had previously been engaged for forward delivery for French account. The Federal Reserve Bank of New York in its Monthly Review remarked that French withdrawals of gold at the Bank of England had ceased during February and the Bank was able to show an increase in its gold holdings due to the reported receipts of £750,000 from South Africa and £300,000 from Brazil. It said that of the South African gold offered in the market, approximately £1,800,000 was obtained by France and £700,000 by Belgium. Canadian exchange at New York continued to rule at a discount but at a declining rate and on the last day of the month (Saturday, Feb. 28) touched par. The gold movement at and from the United States consisted mainly of further gold arrivals from Latin America. The New York Federal Reserve Bank speaking with reference to the movement stated that receipts from South America constituted the bulk of the gold imported at the Port of New York during February, $9,300,000 coming from Argentina and $1,100,000 from Uruguay. At San Francisco $2,700,000 was received from China. There was in addition, it is stated, a gain of $2,500,000 in the country's gold stock through a decrease in gold held under earmark for foreign account. As exports were neglible, a preliminary estimate, we are told, indicates a gain to the country for the month of about $16,500,000.

THE CONTINENTAL AND OTHER FOREIGN EXCHANGES.

The course of rates of exchange on the Continental centers of Europe was decidedly irregular, both with respect to the movements during different periods of the months, and also with respect to the different centers with one another, some moving upward and others downward. The French franc moved within narrow limits, cable transfers at New York on Paris being quoted at 3.91 15-16 Feb. 2 and at 3.91⅞@3.91 15-16 Feb. 28, though in the interval the rate was 3.91¾ Feb. 14, the low for the month, and 3.92¼ Feb. 10 and Feb. 11 the high. The takings of gold on French account at London have been referred to above in our comments on the course of sterling exchange during the month. The Bank of France continued steadily to enlarge its gold holdings, to a new high record with each succeeding week. For the first week of February ended Feb. 7, it reported an increase of 121,972,372 francs; for the second week it showed an increase of 105,983,018 francs, for the third week of 119,735,406 francs and for the final week of the month an increase of 660,000,000 francs. The German mark moved up and down with considerable irregularity, but wound up with the rate on the final day of the month not greatly different from that at the opening. The range for cable transfers on Berlin Feb. 2 was 23.76¾@23.77¼, and on Feb. 28 was 23.77@23.77¼, but several times during the early part of the month it sold as high as 23.79, and on Feb. 14 sold at a range of 23.75@23.75¼. The advance in the mark the early part of the month was mainly due to the budget speech delivered by Chancellor Bruening on Feb. 5, and the success he had in carrying his budget program through. It appeared also that French banks had arranged for participation in an international credit to Germany aggregating $30,000,000. Berlin press dispatches expressed satisfaction over the desire of the French to assist Germany financially and that the French Government had raised no opposition. Another favorable development was large receipts of gold in Berlin from Soviet Russia, 43,000,000 marks gold having been received at the beginning of the month and 21,000,000 marks later in February. As a result of the strength of the Bruening ministry and its success with its budget program confidence in Germany economic and political stability was measurably increased, thereby leading to a considerable inflow of foreign funds. This supply of funds, which seemed to exceed the current limited demand, had the effect in turn to lower interest rates in Berlin. In short, owing to considerable offers of foreign credit to the Berlin market and the steady return of German funds to domestic domecile, combined with increasing confidence in the ability of the Bruening ministry to control the radical elements in th Reichstag, things in Germany assumed a much brighte aspect. The Bank of Germany in the first quarter of Feb ruary reported a loss in gold of 118,000 marks but this wa followed in the second quarter of the month by an increas of 10,179,000 marks and a further increase of 11,337,00 marks in the third quarter with 19,482,000 marks additiona gain in the final quarter of the month. The Italian lir showed only slight changes, cable transfers on Rome Feb. being quoted at 5.23½@5.23 9-16 and Feb. 28 at 5.23¾@ 5.23 13-16.

Exchange on the countries neutral during the war wa characterized by sharp declines in both Swiss francs an Dutch guilders, while on the other hand the Scandinavia exchanges were strong and higher. The Bank of Sweden o Feb. 5 reduced its discount rate from 3½% (the rate in forc since April 2 1930) to 3%, effective Feb. 6, and this was th only change in the discount rate of any European centra bank made during the month of February. Cable transfer on Switzerland were down to 19.24¾@19.25 Feb. 28 agains 19.31½@19.33¼ Feb. 2. Cable transfers for guilders o Amsterdam were 40.10¾@40.11 Feb. 28 against 40.17½@ 40.18½ Feb. 2. The weakness in both the Swiss and Dute exchanges was attributed largely to the withdrawal of Germa funds from these markets and in the case of Holland a furthe movement of funds to the London and New York marke was also noted. The weakness in Swiss francs also followe as a result of efforts on the part of Swiss banks to repel th further inflow of capital from the outside, which had serve to choke the money market with unusable funds. Man Swiss banks adopted the policy of paying no interest at a on foreign deposits, due to the excessive volume of suc deposits. The Scandinavian exchanges seemed to be pu suing a course of their own instead of on parallel lines wit each other. The Norwegian crown on cable transfers wa 26.73½@26.74 Feb. 2 and 26.75½ on Feb. 28, but on Fe 9 sold up to 26.77¾, in this rise duplicating the course sterling exchange during the same period, which also move sharply upward, and then tumbled to 26.72½@26.73 Fe 14, just as sterling bills on London sharply declined durin much the same period, but then recovered to 26.77 on Fe 25 with the rate Feb. 28, as already stated, 26.75½. Cab transfers on Sweden also pursued a very irregular course with the net result of somewhat higher rates on Feb. 2 than on Feb. 2. In other words the Swedish crown o cable transfers was 26.78@26.78¾ on Feb. 28 agains 26.77@26.77½ on Feb. 2 after having been up to 26.79 on Feb. 9, Feb. 10 and Feb. 11, and down to 26.75 Feb. 1

he Danish crown on cable transfers was 26.75 Feb. 28, as gainst 26.73½@26.74 on Feb. 2, with a high for the month 26.77¾ Feb. 9, and a low of 26.72½ Feb. 14. The panish peseta, after a violent decline in the early part of he month as a result of negotiations with the radical ele- ents in the country for the formation of a new ministry to ucceed the ministry under Premier Berenguer, which had esigned, enjoyed a sharp recovery when King Alfonso re- ected the cabinet submitted by these radical elements and alled upon the monarchists to form a cabinet, then accepting ministry made up entirely of royalist supporters of the king. panish pesetas on cable transfers dropped from 10.25 Feb. 6 o 9.70½ Feb. 13, and then spurted up t o10.74 Feb. 24 with he range Feb. 28 at 10.50@10.55.

Exchange on South America showed a sharp improvement n the case of the Argentine peso which on cable transfers ose from 30.47 on Feb. 2 to 33.15@33¼ Feb. 28 owing to he liberal way in which gold was exported from Argentine o New York but showed continued weakness in the case of he Brazilian milreis which on Feb. 28, on cable transfers vas down to 8.20@8.40 against 8.75@8.80 Feb. 2, owing to he demoralized state of Brazilian finances and the inability o provide any feasible plan for taking care of the coffee ituation. The price of coffee continually declined notwith- tanding all efforts to arrest the downward movement. It is roper to state, however, that all Brazilian quotations are nerely nominal and furthermore that the San Paulo Govern- nent continued to meet promptly all its obligations in con- nection with the Speyer Coffee Realization Loan of last year. The Peruvian sol on checks declined still further and touched n new low owing to a fresh uprising in that country; the rate on checks dropped from 28.50 Feb. 2, to 26.85 Feb. 14, and was 27.14 on Feb. 28. There was no great change in the Chilean peso, but the Uruguayan peso on checks ad- vanced from 65.87@68¾ Feb. 2 to 71.12@71¼ on Feb. 28.

In exchange on the Far East there were no strikingly new developments. The low price of silver continued a depress- ng influence in exchange on China. Silver further declined, touching a new low record in all time at 12d. per oz. in London on Feb. 9, as against 13¼d. Feb. 2, but recovered somewhat after that date and was quoted at 12¾d. per oz. on Feb. 28. Exchange rates on China points moved more or less in ac- cordance with the fluctuations from day to day in the price of silver, and the recovery in the metal also brought some recovery in exchange rates. The dollar on Hong Kong got as low as 22⅛@22 9-16 Feb. 17 and 18, as against 23⅞@ 24 7-16 Feb. 2, but recovered to 22⅞@23 1-16 Feb. 28. The tael on Shanghai dropped from 31⅛ Feb. 2 to 28 Feb. 16, 17 and 18, and was 29¼ Feb. 28. Rupees on Bombay remained virtually unchanged at 35.95@36⅛ throughout the month, in the face of the political problems in India, the country being on a gold basis notwithstanding that it is also a silver using country. The Japanese gold yen con- tinued to show considerable strength in face of the unsettled condition in the whole of the Far East because of the continued drop in silver. The yen in checks on Yokahama was 49.38@49⅝ Feb. 2 and at 49.38@49 9-16 Feb. 26, with only minor fluctuations in the interval, and was 49.36@ 49 9-16 Feb. 28.

The tables on pages 16 to 38 furnish a complete record of the transactions on the New York Stock Exchange during February and range since January 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "*Interest Period*" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bond are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. A few other bonds, like the Holland-American Line 6s, for special reasons, are also quoted "flat," but where this is the case the quotation "*flat*" will be found against the name of the issue. This method of quoting bonds became effective Jan. 2 1909.

For footnotes to tables see last page of bonds and last page of stocks.

General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and descriptions, not only those dealt in on the exchanges but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

	Page		Page		Page

Real Estate Bonds	91	Textile Manufacturing Stocks	92	Foreign Government Bonds	98
Investment Trust Stocks and Bonds	79	Mining Stocks	92		

Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.; "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.
